OUR SLOGAN: An Industrial Metropolis of Industrious People Who Pull Together.

Volume 17.

THE REDCLIFF REVIEW.

THURSDAY, JUNE 14th, 1928

Number 17

Quiet Meeting of Council Last Monday

At Regular Meeting Held Last Monday Evening

Very little business of importance was transacted at the regular meeting of the town council last Monday evening. Mayor Works was in the chair and all the councillors were present. After the reading and adoption of the minutes, Solicitor Baird reported the Court case in connection with the latter's application to redeem his property on Broadway. The case was heard before Judge Walsh on Monday afternoon and the Judge granted Mr. Court-nell's petition provided back taxes were arranged satisfactorily with the town.

The usual monthly accounts were read and approved.

The offer of L. U. Harris for two lots near his property was accepted.

Mrs. Nixon wrote offer to purchase a small house on Third street south. The matter was referred to the building committee for investigation.

An account from the Medicine Hat hospital for \$410.00 for care of Mrs. Riley for 168 days was referred to solicitor Baird for investigation.

The offer from the Pressed Brick Co. of \$150.00 for the old Shipley building on Third street was then considered. Councillors Champ and Brydie thought it would be a mistake to move buildings off that street as it is on the main highway through town. These two councillors moved and seconded that the offer be not accepted.

Moved by councillor Brough-40, seconded by councillor Sisson, in amendment, that the offer be accepted. This amendment was lost on the following division: yeas: councillors Brough-ton and Sisson; nays: councillors Brydie, Champ, Campeau and Cox.

The amendment was declared lost and the motion carried on the same division.

Constable Kivinen asked for seven days' leave of absence. This was granted on motion of councillors Champ and Brydie.

Wm. Champ was appointed to take Mr. Kitchen's place during his absence.

On motion of councillors Cox and Champ the town foreman was instructed to have the pipe from the water main to the Pressed Brick plant repaired.

Council then adjourned.

NEW C. P. R. BOAT MAKES RECORD TRIP

On her maiden voyage across the Atlantic the new C. P. R. ship, "Duchess of Bedford," made a record trip. She carried passengers for all parts of Canada. The following is her record: 6 1-2 days Liverpool to Quebec, 7 days Liverpool to Montreal, 1 1-2 days Liverpool to Winnipeg, 3 days Liverpool to Redcliff, 9 1-2 days Liverpool to Calgary.

HILDA WOMAN IS SENT UP FOR TRIAL

Mrs. Pauline Berthel, of Hilda, charged with attempted poisoning of her husband, appeared before Major Moodie, J.P., of Maple Creek, and was committed to stand trial at the next session. The alleged attempt to poison occurred May 12th.

MRS. PANKHURST DIED SUDDENLY IN LONDON

One of the most picturesque figures in the Women's suffrage movement, Mrs. Emmeline Pankhurst, died this morning in a London nursing home, aged 69. Death came after a comparatively short illness. Mrs. Pankhurst was the first militant suffragist in the efforts to obtain the vote for women.

Good Program For The Stampede Here

Will Be Held on The Stampede Grounds, July 2nd

Arrangements are now well under way for the big stampede here on Dominion Day, which will be celebrated on Monday, July 2nd. Present indications are that some good horses will be here for this race and cowboys are coming from all quarters to take part in the bucking and steer riding contest.

A complete stampede program has been planned and a good day's entertainment is now assured.

Annual U. F. A. Service At Bowell Sunday

Invitation Extended to Friends To Attend

The U. F. A. annual Sunday falls on June 17th this year and will be celebrated with a special service in the Bowell school house at 3 p. m. of that day. An invitation is extended to all to join in this service.

COMMONS AGAIN REJECT REVISED PRAYER BOOK

By a vote of 256 to 220, the British House of Commons again Thursday night rejected the revised prayer book of the Church of England. The vote coming after two days' close debate on which the attention of the nation had been focused, recorded a majority almost identical with that in the previous rejection last December, when the vote was 247 to 205.

The revised prayer book after rejection last December was altered by the bishops and after approval by the church assembly, was submitted to parliament Wednesday.

HERALD DEVOTES PAGE TO REDCLIFF INDUSTRIES

Last Saturday's Herald had a page write up of the industries in Redcliff. The Rev. Matheson prepared the copy for the special page and we must compliment him on the splendid way in which he covered the territory.

Churches

ST. AMBROSE CHURCH

Trinity Sunday, June 3rd. Evensong at 8 p.m., Rev. W.C. Western, R.D.

GORDON MEMORIAL UNITED CHURCH

R. N. Matheson, R.M., Minister. Strangers and visitors are very cordially invited to attend the services and to share in the activities of Gordon Memorial church.

Organizations meet as follows: The Official Board on 2nd Tuesday in each quarter at 8 p.m.

Committee of Stewards on the 2nd Tuesday of each month at 8 p.m.

Women's Missionary Society on the last Thursday of each month at 8 p.m.

Ladies Aid, every Tuesday, 8 p.m.

Mission Band, every second Sunday at 4:15 p.m.

Sunday, June 17th.

10 a. m. Church School.

11:15 Public worship.

"Equipped" 7:50 p. m. in evening service.

Sabbath Evening with Jesus 8 p. m. U. F. A. service in Bowell school house.

CHURCH OF THE BRETHREN

Rev. D. Hollings, Minister. Usual services.

ST. MARK'S CHURCH

Celebration of Mass, Second and Fourth Sundays of each month at 8:30 a. m.

Redcliff Gets Bye In Bennett Shield

Will Play Winners of The First Draw on June 29th

After the game here has Friday evening representatives of each of the clubs in the local football league got together and made the draw for the Bennett Shield games. The first two games drawn were Chilles and C. P. R. These two teams will play the first game on Tuesday evening, June 26th. Redcliff will play the winners on Friday evening, June 29th.

All the games will be played in Medicine Hat. After expenses are deducted the gate receipts will be pooled and divided among the three clubs.

The winners of the league will then play off with the winners of other leagues for the championship of the province.

Cameo May Open In The Near Future

Plan to Put on Show on Evening of Dominion Day

Messrs. Yull and Mahar of the Monarch theatre, Medicine Hat, were in town today making arrangements for opening on Monday week. About seventy-five men were in town today making arrangements for opening on Monday week. The review was assured that it was the intention to get the picture show going again here if at all possible. If the building can be put in shape in time it is hoped to put on a big show here on the evening of the Dominion Day holiday, Monday, July 2nd.

If this is accomplished regular shows will be run weekly in the future.

St. Ambrose Ladies Entertain Delegates

Serve Refreshments in the Parish Hall Thursday

The W. A. of St. Ambrose here, entertained delegates to the convention held in Medicine Hat last week. About seventy-five men were in town today making arrangements for opening on Monday week. The review was assured that it was the intention to get the picture show going again here if at all possible. If the building can be put in shape in time it is hoped to put on a big show here on the evening of the Dominion Day holiday, Monday, July 2nd.

If this is accomplished regular shows will be run weekly in the future.

George Grieve Dies Suddenly This Morning

Succumbed to Severe Attack of Heart Trouble

After a month's illness suffering from heart trouble, Mr. George Grieve, a pioneer farmer of this district, passed away this morning at one o'clock.

About a month ago deceased was stricken with heart trouble. For a time he showed encouraging signs of improvement under treatment of Dr. Rogers, but his worries about the farm compelled him to leave his bed in order to be out around. Unfortunately he took a relapse and his already shattered condition could not withstand the extra strain.

The deceased gradually grew worse until the end came.

Deceased was 69 years of age. He came to this district from near, Fifeville, Scotland, 25 years ago and homesteaded five miles west of town on what he afterwards named "Raveston Farm."

Fourteen years ago deceased married Florence Smith, sister of Fred and Earnie Smith, of Box Springs, and Redcliff respectively.

Mr. and Mrs. Grieve had no children.

Deceased was a quiet unassuming disposition but was looked upon by all who knew him as a real, true friend. He was an indefatigable worker, and was considered one of the best farmers of the district.

His advice was sought in all branches of farm work.

In the death of Gordit Grieve this district loses one of its most popular and unassuming farmers.

Although farming on what he termed only a small scale he was most successful and it was his great boast that, no matter what the weather conditions, he always had a crop of some kind.

The funeral will be held next Monday afternoon. The remains will be interred in Redcliff cemetery.

AUSTRALIAN FLIERS REACH HOME SAFELY

The Australian fliers in the "Southern Cross" have completed their trip across the Pacific from Oakland, California to Brisbane, Australia, this Saturday.

The last lap from the Pacific Islands, a distance of 1,700 miles, was the most dangerous and bad weather conditions were in the way.

In all the "Southern Cross" covered 7,000 miles in 82 1-2 hours. This was the first time the Pacific has been crossed by an all-British flight.

The flight was a marvellous one.

Duncan McLachlan, a former resident of Redcliff, and brother of our own Donald, passed through town last evening on his way east. Donald met him at the station and went as far as Medicine Hat with him.

The flight was a marvellous one.

Oddfellows Attend Service Last Sunday

Visitors Present From Irvine, Medicine Hat and Walsh

Oddfellows from Medicine Hat Irvine and Walsh joined with the lodge here last Sunday to commemorate the 109th anniversary of the founding of the lodge on this continent.

Local members and visitors assembled at the lodge room and marched to Gordon Memorial church where service was held at three o'clock in the afternoon.

At the church the pastor, Rev. R. N. Matheson welcomed the visitors after which he gave an appropriate address, basing his remarks on 1st Cor. 2 & 2: "Jesus Christ the Crucified."

After the service a pleasant social hour was spent in the lodge room. Her inspirations and interesting addresses were given by Grand Warden B. M. Morden of Lethbridge; Deputy Grand Master M. Schroder, Walsh; Sister Muxworthy, D. D. P. Sister Coyne, R. P. of Medicine Hat, and Wm Henderson of Redcliff. The latter also read the meeting with prayer.

There was a good turn out of both Oddfellows and Rebekahs and the gathering was considered by all a great success.

Under the direction of the national Fraternity Council of Canada, a party has started a survey of sheep ranches in the western provinces.

A study is being made of the advance made by ranchers in improving the quality of their wool.

Redcliff tried out some new players in the game last Friday afternoon and will give them a try out in the game with the C. P. R. in the Hat or Friday of this week.

It is some time since Redcliff has had such a full list of signed players as this year. We are satisfied that from this list the best team available has not yet appeared on the field. This has been unavoidable but we could suggest that not so full an estimate get together as soon as possible and choose a committee whose duty it will be to select the teams for each game. It is not fair to leave this to one or two and then criticize their work.

Redcliff and Callies Play Draw Game

Good Work of Both Defences Makes Scoreless Game

Redcliff and the Callies played a scoreless football game here last Friday evening in the McClellan cup competition. As the score would indicate the teams were about as evenly matched as it is possible for two teams to be. The feature of the game was the splendid work done by the defence of both teams. Neither forward line appeared to be able to break through. The general opinion of the spectators was that both forward lines had a tendency to try to work too close in to the goal before shooting or trying to draw the defence out.

Although closely contested, and although both teams appeared to be working hard for a goal, the game was not exciting as some we have had. It would appear that a few goals are necessary to create the usual excitement and interest.

However both teams put up a good clean brand of ball. The good citizenship of all the games so far shows that the fans appreciate the kind of ball being played this season, and are giving the necessary support and encouragement.

Redcliff tried out some new players in

Eliminating Waste

Value Of Scientific Effort As Related To Production

The Vancouver Province publishes a well-informed and scholarly editorial article under the heading "Waste." It deals with wheat, fruit, lumber, minerals and fish. In each of these classifications of production, the country has been wasteful either by way of actual waste of good material or of failure to produce the best of which it is capable.

The Province refers to the quantity of comparatively grade wheat that was grown last season. "So far as Canada is raising grade wheat when she might raise good wheat," the Province says, "she is wasting her opportunities and the labor of her farmers and is jeopardizing her reputation as the grower of high-grade grain." This is quite true and this is also the primary reason why trained agriculturists to Alberta recently" promoted a province-wide campaign for pure seed. It can be said, nor does The Province say, that it is possible always to grow grain of high grade. Last year proved this. It was an off year. Late rains and early growth affected the grain. But, year in and year out, the quality will be higher if careful attention is paid to sound methods of growing wheat. What greater care would mean to increased revenue for the farming population they are easily estimated by comparing the prices received for No. 1 and No. 2 Northern with those of No. 3 and the lower grades.

We in this province are not so closely concerned with waste in fish and mining. But we should not neglect the fact that increased value wrought from our natural resources anywhere in the Dominion is the end result leading conditions in Calgary and Alberta.

Fortunately, there is a national awakening in Canada to the value of scientific effort as related to production of all sorts. Science has done and is now doing great things in eliminating waste, as related to the value of man's efforts. This is as true in the field of agricultural industry as it is in the field of manufacturing industry. Science is the key. The fruits of knowledge are open to the use of all who are alert and ambitious. We hear many complaints about conditions in this country. Actually we are much better off than most of us realize and better off than those in many other lands. But, as the Vancouver Province rightly says, "there would be no complaint if we use our patrimony to the full and not waste it."—Calgary Herald.

Showered Her Gratitude

Mother Reverenced Her School Teacher In Unusual Way

A charming young school teacher who has classes of children of about eight and nine in a school in Bronx tells this story: "Recently a mother called to discuss her daughter's work and behavior. These were reported to be excellent and the parent departed in fine humor. The next day the girl tripped up to a teacher's desk and handed her a bundle with the word that it came from her mother. The teacher thanked her and began to unwrap it. Then she put it away hastily in a desk drawer. It was a bottle of Scotch.

Made To Meet

A young mother just returned from India had engaged a new nurse for her baby. "I don't know what's the matter, cousin, but this little one cries and cries. I can do nothing to quiet it." The mother thought a moment. Then, brightening up, she said:—"I remember now. Baby's last nurse was a black one. You will find the stove-pipe on the third shelf of the kitchen cupboard."

Judge: Only inserted a week and you lost your wife? A month's imprisonment will cure you.

Husband: I've a bit tough spelling on my honeymoon like this.

In Canada, the forest is second only to agriculture in the value of its production.

A catalogue of farming implements sent out by a manufacturer found its way to a remote rural village, where it was evidently received with interest, for the firm got back a carefully-written, if somewhat clumsily expressed letter, asking for further particulars about one of the articles advertised.

To this, in the usual course of business, was sent a typewritten answer. By return of post, the manufacturer received this reply: "You need not print your letters to me. I can read writing."

A motorist says that pedestrians are not to be trusted. No, they are always up to some dodge or other.

The better carrier expects everyone to be able to take things as they come.

Witness: "Must I take the oath? I don't believe in God."

Judge: "It doesn't matter so long as you believe in jail."—Knickerbocker.

W. N. U. 1731

All Ancient Customs

Used At Most Weddings But Few People Know Why

Here are five wedding customs which few could answer, says a writer in *Atlanta*. Why does a bride wear a veil? Why is rice thrown over a bride couple as they leave the church? Why is the wedding ring put on the fourth finger of the left hand? Why is, an old shoe thrown after a married couple as they drive to their station? Why have a wedding cake?

The veil is but the continuance of the ancient Eastern rule that no man saw his husband's face until after the ceremony.

The throwing of rice is another Eastern custom. Rice is the staple food in the East, and throwing it symbolized a wish for plenty.

The choice of the fourth finger of the left hand for the ring is an old custom of pagan Rome. It was believed that a nerve direct from that finger to the heart.

"Shoe-throwing is another Eastern custom which we have adopted with a slight variation. Originally the bride's father gave an old shoe to the bridegroom, a symbol that as he was sending his old parental right of blessing his daughter. A shoe or slipper was the usual instrumental employed.

The wedding-cake is Roman in origin. A cake made of flour, salt, and cheese was always eaten by Roman couples on the presence of the ring. It formed part of the marriage rites.

Finally, behind the question: "Who gives this woman to be married to this man?" was the accepted belief that a woman was a "battered" life furniture!

England the Music Maker

Supplies Every Civilized Country With Band and Orchestral Instruments

"The English are called an unmusical nation, but England makes the music of the world. This statement was made by Lieutenant-Colonel H. H. Tatton, the organist of the Cathedral of St. Paul, London.

"British band and orchestral instruments," said Colonel Tatton, "go to every civilized country, and there are famous orchestras all over the world in which British-made instruments are used."

"We also excel in the engraving of the plates from which music is printed. This was almost entirely a Continental trade before the war, but work as good in quality and as inexpensive as anything of the kind which is made on the Continent is now produced in this country, and music engraving is becoming a British industry."

We export as many gramophones and gramophone records as all the rest of the world. Germany is a good customer for English gramophones and records, and Italy buys more gramophones and records from England than she manufactures herself."

The Lure Of The Farm

For City Dweller Usually Means Whisk For A Week

The week aside to the city man's longing to live on a farm is the fact the longing is strongest in the spring, right when he has the greatest desire to quit work of all kind and spend the remainder of his day's in idleness. For this reason it looks as if his longing to own a farm has no connection whatever with farm work. He simply wishes to get away from town and do nothing. It is a farm residence he wants, and a farm spring, and he would like to live in the beautiful field of wheat; but he doesn't wish to work in the field. That is not his idea of being a farmer. Possibly there are some few men in town who would really make good farmers but most of those who long for farm life at this season are thinking of complete rest.

Had Passed Printing Age

A catalogue of farming implements sent out by a manufacturer found its way to a remote rural village, where it was evidently received with interest, for the firm got back a carefully-written, if somewhat clumsily expressed letter, asking for further particulars about one of the articles advertised.

To this, in the usual course of business, was sent a typewritten answer. By return of post, the manufacturer received this reply: "You need not print your letters to me. I can read writing."

A motorist says that pedestrians are not to be trusted. No, they are always up to some dodge or other.

The better carrier expects everyone to be able to take things as they come.

Witness: "Must I take the oath? I don't believe in God."

Judge: "It doesn't matter so long as you believe in jail."—Knickerbocker.

W. N. U. 1731

FEEDING AND

WEANING YOUNG PIGS

Profit Depends To A Large Extent On Proper Treatment

The profit one makes in the raising of hogs depends to a large extent than many suppose on the treatment the litter receive while they are quite young. Years of experience and scores of experiments on the Experimental Farms have justified the conclusion that the character of the feeding and management of the sucking and weaned pig has as great an influence on the results as the sow. Circular No. 61, of the Department of Agriculture, at Ottawa, recommends teaching the litter to eat three weeks before weaning. The use of a creep which will admit the little pig but not the mother, is recommended. For best results at weaning times, sweet skim milk is regarded as a practical necessity, subsequently most skim milk or buttermilk may be used. Middlings mixed with milk are easily digested and very nourishing. It is recommended also to scatter a few handfuls of dry grain from time to time in the bedding. This ensures the little pigs taking exercise in hunting up the larder. Over-feeding is a frequent cause of ill-health and stunting. If two litters are a sow is raised it may be necessary to let the pigs at six weeks of age, but if the litters are more widely distributed, they should not be taken from their mothers until they are two months old. This circular, written by Mr. G. B. Rothwell, the Dominion Animal Husbandman, and his assistant, Mr. W. G. Dunsmuir, who is available at the Publications Branch of the Department, recommends ideas not only for the weanlings but for all classes of hogs. It also gives very helpful advice on how to avoid or overcome ill health.

Value Of Shelterbelts

Good Results Have Been Obtained From An Agricultural Standpoint

The planting of shelterbelts on prairie farms in Western Canada has given appreciable results from an agricultural standpoint. The water-conserving power of the soil has been increased, the soil has been protected from extremes of temperature and wind movements has enabled the introduction of the harder fruits in many localities. Of particular importance is the additional moisture secured through the formation of snow drifts which, melting gradually in the spring, provide water after adjoining treeless areas have largely dried up.

Unless a man has scored at least one failure he is unable to appreciate success.

We export as many gramophones and gramophone records as all the rest of the world. Germany is a good customer for English gramophones and records, and Italy buys more gramophones and records from England than she manufactures herself."

The slope is the most recent photograph of the three fliers who are the only ones ever to conquer the North Atlantic in a westerly non-stop flight and who also spent the odd operation about Friday the 13th being unhappy by concluding their history-making hop from Montreal en route to Greenland Island, Quebec, on the date.

The first outside help to reach the trio was brought by a Fairchild plane which reached Greenland on Sunday afternoon, April 15, at five o'clock and aboard which were Lieut. C. A. (Chick) Schiller, Jr. Louis Cluett and Modest Thibault.

Road Programme Carried Out

More Than 7,000 Miles Built With Dominion Subsidy Since 1918

Virtual completion of Canada's road building programme, begun in 1918, was accomplished in 1927, according to the recently published annual report of the Commissioner of Highways. Co-operation between the federal and provincial governments of the Dominion, given under the Canada Highways Act, made possible the successful carrying out of the road programme.

Up to the end of March, 1927, 7,428 miles had been completed out of a total of 8,415 provided under the agreement. This mileage was constructed under the provisions governing the federal subsidy whereby the Dominion Government undertook to furnish 60 per cent of the cost, the provinces taking care of the remaining 40 per cent.

The federal appropriation amounted to \$20,000,000 and the estimated cost of the highways was \$48,900,792. Of this the federal government, in addition, had provided \$1,817,750,000 out of an estimated \$18,177,500,000 of \$19,998,250.

All provinces moved eagerly to take advantage of the grant and operated up to the full extent so that the securing benefits are spread generally over the Dominion. The total amounts received by the provinces are: Prince Edward Island, \$903,485; Nova Scotia, \$1,466,730; New Brunswick, \$1,165,843; Quebec, \$4,748,420; Ontario, \$5,854,005; Manitoba, \$1,443,319; Saskatchewan, \$1,684,294; Alberta, \$5,658,389, and British Columbia, \$1,355,355.

Giving Lessons On Walking

Vienna Is Holding a "Pedestrians Week" For This Purpose

People who walk on the streets of Vienna do so in an improper manner, the police authorities claimed in announcing a "pedestrians week" when they will try to teach the public how to use the streets. A large body of trained policemen will daily invade all the principal thoroughfares, detain the walking citizens and demonstrate to them how they must follow the rules, overtake and pass each other on the sidewalks and where and how to cross the streets.

Traveller (on boat):—"You were sick the first few days of the trip and the captain gave you leave?" Did you not?

The New Deck Hand—"I didn't want to ask."

In the anthracite mining districts of Pennsylvania many children of 13 and 14 years of age are full-time wage earners.

THE SUGAR JACK

SYSTEM OF FEEDING

Does Not Seem To Improve The Nutritive Value Of Roughage

The "Sugar Jack" process is a method recently put on the market for the utilization of dry, coarse and unpalatable forage. It is an ensiling process in which a so-called "converter," the Sugar Jack Converter, is used to isolate the dry forage before it is placed in the press or meal silo. An experimental investigation of this process has been made by the Animal Husbandry Division at the Central Experimental Farm and the results published in a new bulletin entitled "The Conversion Of Dry Roughage Into a Succulent Feed."

Analysts of the "Sugar Jack Converter" has shown it to contain largely of common salt pigs, shelled lime, and a little vegetable matter. In fact warm water, and warm water with common salt used to replace the Sugar Jack Converter proved to be as satisfactory in the processing as did the solution of the converter. Judging from the results of practical feeding tests and from chemical and bacteriological analysis, Sugar Jack processing does not add to or improve the nutritive value of the original roughage. In the feeding trial conducted the Sugar Jack ration produced considerably less milk than stags and was much more expensive. The production of milk and fat from the consumption of the unprocessed dry roughage was equal to that from stags. The results of the feeding trial conducted by the Sugar Jack system, however, require much more labor than is necessary in feeding either corn silage or unprocessed roughage. As a matter of fact the Sugar Jack process is simply a development of an old fashioned method of feed preparation long since discarded in favor of modern methods such as the silo. The bulletin is distributed by the Publications Branch of the Department of Agriculture, Ottawa.

Blazing the Trail

Brail Is Like Forest and Thoughts Are Just Paths

The brain is like a dense forest, and our thoughts are backwoodsmen blazing a trail. When once a certain thought has passed through it, it is easier for the same kind of thought to come again. That is habit. Fold a piece of paper, then spread it out. It is easier to fold it again in the same crease than in any other way. That is habit. So, to create a habit of cheerfulness, persist and cheerfully thought along again and again until the trail in our minds is thoroughly blazed. Then it will be easy to be cheerful. —F. V. Anderson.
